## Work Experience

### The Boeing Company | Seattle, WA

Mar 2012 - Present

#### Corporate Credit Analyst

- Analyze GAAP, IFRS, cash and tax basis financial statements (Balance Sheet, Income Statement, Statement of Cash Flows) to assess the financial viability of existing and potential suppliers
- Perform contract assessments ranging in values from \$350K to over \$1B to determine whether suppliers can financially support intended statement of work
- Interact with supplier executives (CEO, CFO) to attain, clarify, and resolve any financial statement discrepancies
- Perform regular financial health checks of critical suppliers currently under contract to provide early warning to internal Supplier Management of potential financial failure
- Communicate (both verbally and in writing) to the buyer (Supplier Management, Procurement) advising of potential contracting risks
- Assist customer in developing risk mitigation plans to minimize payment and performance risk

Jul 2010 - Feb 2012

#### Estimating & Pricing Analyst

- Developed and presented financial forecasts for Warranty on a quarterly cycle
- Applied budgeting and estimating tools such as improvement curve theory and regression models to perform quarterly risk assessment and cost estimates
- Created and interpreted statistical variance charts using JMP and @Risk for business cases and to evaluate investment decisions

### American Electric Power (AEP) | St Louis, MO

Management Analyst Rotation Program

Aug 2006 - May 2010

#### Logistics Coordinator | Claims & Insurance Associate

- Negotiated and settled 40+ property and equipment damage claims per month for in-house and 3rd party incidents valued between \$1,000 and \$200,000
- Examined and managed vendor permits, certificates of insurance, and other related documents to determine coverage compliance prior to contracting
- Developed and presented weekly sales projections and delivery status reports to senior management
